1. Inauguration Function:

The inaugural function is started at 10 am as per schedule. The chief guest for inauguration was Dr. D. N. Mudgal Director, AMGOI. The function started with lightning of lamps. The introductory speech was delivered by Prof. J. M. Shinde, CESA Coordinator. The felicitation of dignitaries with roses & books is followed by introductory speech.Mr. Rohit Katkar Trainer of Poly Edge Consultancy Give the introduction of 3D software. Vote of thanks was delivered by Prof. S. A. Jangam.

2. Participant Details:

Total 22 participants were attended the program. All participants from TY Civil

Date: 23rd July 2018

Venue: GL-08 Civil Department

Guest Speaker: Mr. Rohan Gundale (CEIIT, Pune)

Audience: 42 Students.

Introduction: The "Importance of Civil Engineering Software" guest lecture was organized on 23rd July 2018 at GL-08 Civil Department with the objective of highlighting the significance of software applications in the field of civil engineering. The guest speaker for the event was Mr. Rohan Gundale, a renowned expert in civil engineering software and its practical applications.

Event Summary: The guest lecture commenced with a warm welcome to all attendees, followed by a brief introduction of the guest speaker Mr. Rohan Gundale began the lecture by providing an overview of the evolving landscape of civil engineering and the increasing reliance on software tools to enhance efficiency, accuracy, and productivity in various projects.

Key Points Discussed:

- Introduction to civil engineering software: The guest speaker explained the purpose and functionality of various software applications used in civil engineering, such as computer-aided design (CAD), building information modeling (BIM), structural analysis software, and project management tools. The audience gained insights into how these software tools streamline design, analysis, and project management processes.
- Benefits of software applications: The lecture highlighted the numerous benefits of utilizing civil engineering software. These include increased accuracy in design and analysis, improved visualization and communication of project concepts, efficient resource allocation, time savings, and the ability to simulate and analyze complex scenarios.
- Real-world examples: The guest speaker presented real-world examples where civil engineering software played a crucial role in successful project execution. Attendees were shown case studies of infrastructure projects, architectural designs, and construction projects where software tools helped optimize designs, identify potential issues, and facilitate collaboration among multidisciplinary teams.
- 4. Industry trends and future prospects: The lecture touched upon emerging trends in civil engineering software, such as the integration of artificial intelligence, machine learning, and cloud computing. The audience gained insights into how these advancements can further enhance the capabilities of software tools and revolutionize the civil engineering field.

Q&A Session: Following the presentation, an interactive question-and-answer session took place, allowing attendees to seek clarifications and delve deeper into the topic. The guest speaker addressed various queries raised by the audience, providing practical examples and recommendations for software adoption.

Conclusion: The "Importance of Civil Engineering Software" guest lecture proved to be an enlightening event that emphasized the significant role of software applications in modern civil engineering practices. The informative presentation delivered by Mr. Rohan Gundale effectively showcased the benefits and practical applications of these tools. We are confident that the knowledge gained from this event will inspire attendees to embrace software solutions and leverage their potential for enhanced project outcomes.

Acknowledgments: We extend our sincere appreciation to Mr. Rohan Gundale for sharing their expertise and valuable insights. We also express our gratitude to the organizing committee, volunteers, and all attendees for their active participation, contributing to the success of the event.

Date: 20th March 2019

Venue: GL-08 Civil Department

Guest Speaker: Mr. Gomtesh Sharad Patil (RCC Design Consultant)

Audience: 68

Introduction: The "RCC Design Practices" guest lecture was organized on 20th March 2019 at GL-08 Civil Department with the objective of enhancing the understanding of reinforced concrete design principles among the attendees. The guest speaker for the event was Mr. Gomtesh Sharad Patil (RCC Design Consultant), a renowned expert in the field of RCC design and construction.

Event Summary: The guest lecture commenced with a warm welcome to all attendees, followed by a brief introduction of the guest speaker. Mr. Gomtesh Sharad Patil (RCC Design Consultant) initiated the lecture by providing an overview of the importance of reinforced concrete design in modern construction and its significance in ensuring structural integrity and safety.

Key Points Discussed:

- Introduction to RCC design: The guest speaker presented an introduction to the fundamentals of RCC design, including the behavior of reinforced concrete under various loads and the principles governing its design. Attendees gained a solid foundation of concepts such as working stress method and limit state design.
- Structural analysis and design considerations: The lecture focused on the importance of structural analysis in RCC design and the factors to be considered, such as load calculations, support conditions, and seismic design parameters. Attendees learned about the various design codes and standards applicable to RCC structures and the need for compliance.

.

- Design of structural elements: The guest speaker provided insights into the design of key structural elements, including beams, columns, slabs, and foundations. Attendees were guided through the process of determining the dimensions, reinforcement detailing, and design assumptions for each element based on the given design loads and safety requirements.
- 4. Design software and tools: The lecture highlighted the use of modern design software and tools in RCC design. The guest speaker demonstrated the functionality and benefits of popular software applications used for structural analysis, design, and modeling. Attendees gained an understanding of how these tools aid in streamlining the design process and improving accuracy.

 Case studies: The guest speaker shared real-life case studies of RCC structures, illustrating the application of design principles in practical scenarios. Attendees were able to observe how different design considerations and strategies were employed to ensure the safety and durability of the structures.

Q&A Session: Following the presentation, an interactive question-and-answer session took place, allowing attendees to seek clarifications and delve deeper into the topic. The guest speaker addressed various queries raised by the audience, providing practical examples and insights into RCC design practices.

Conclusion: The "RCC Design Practices" guest lecture proved to be an informative and enlightening event, equipping attendees with a deeper understanding of the principles and considerations involved in RCC design. The knowledge shared by Mr. Gomtesh Sharad Patil (RCC Design Consultant) provided valuable insights into the application of design codes, software tools, and practical design strategies. We are confident that the learnings from this lecture will enhance the attendees' proficiency in RCC design and contribute to their professional growth.

Acknowledgments: We extend our sincere appreciation to Mr. Gomtesh Sharad Patil (RCC Design Consultant) for sharing their expertise and enriching our understanding of RCC design practices. We also express our gratitude to the organizing committee, volunteers, and all attendees for their active participation, contributing to the success of the event.

About the Institute:

Ashokrao Mane Group of Institutions is one of the 'Rural-semi Urban-society centered and focused educational institute's group. When Ashokrao Mane dreamt of education, Shri Balasaheb Mane Shikshan Prasarak Mandal took its birth, with a holy intension bridging the gap between 'literate & illiterate'. Shikshan Prasarak Mandal's founder President Ashokrao Mane believed that, it is need of rural India to establish different educational Institutes. Accordingly, near about 30 various educational institutes are established for quenching the thirst of knowledge oriented people. The educational campus is located at Vathar tarf Vadgaon; Tal- Hatkanangale; Dist-Kolhapur. The campus is spread in about across 20 acres of lush greenery with well planed infrastructure. Ashokrao Mane Group of Institutions (Integrated Campus) was started in 2009 to promote Technical Education and Management studies in western part of Maharashtra State. The Integrated Campus is situated beside the Poona- Bangalore national highway (NH 4), near Kolhapur, at Vathar Turf Vadgaon, which is well connected by all modes of transport. The Integrated Campus offers education in engineering at pre graduation, graduation and post graduation level along with masters in Business Administration. The recent achievement of the institute is that three programs ie. Mechanical Engineering, Civil Engineering, Electrical Engineering are accredited with NBA and other programs are under pipeline.

Vision: To become a globally renowned institute of excellence in technology and management education for rural community

bout the Department:

Civil Engineering Department was established in 2009 Department is committed to focus on students overall development with keen effort of faculty & staff members.

Department with its excellent infrastructure, state to the art laboratories & computing facility is extending unlimited opportunity to students for developing totheir full potential & abilities to make them a Good Engineer. Department of Civil Engineering is active by promoting students for curricular & Extra-curricular activities.

Who can attend?

The teaching faculties of any Department Engineering college and P.G. Students.

- P.G. Students /faculty will be charged Rs. 750/-
- No TA/DA is applicable.
- Participants must send filled registration form to the co-ordinator on or before 05th January 2019.
- Note: Two faculty members from load milege clusters with AMGOI are exempted interpayment of fees.

Objectives of workshop:

Research provides new domain of knowledge, new theories and laws, solution to a problem and open new areas of thought. Further, it has the potential to question and analyze the existing theories in accordance to the present circumstances. Hence, it is important for educational/professional academicians to be acquainted with the process of research i.e. research methodology.

After the completion of this workshop, participants should be able to,

- Understand the need for research and formulate problem statement accordingly.
- Set Research Goals and Develop.
- Learn to report research work.

Sub: Co-coordinator's Report.

Respected sir,

We the department of civil engineering, AMGOI, Vathar organized Two days workshop on 'Qualitative Research Methodology' under LEAD College Programme of SUK. We conducted this workshop in the month of January (Date: Monday 7th & Tuesday 8th January 2019) for an internal as well as external participants. All the sessions were conducted as per schedule & participants got good understanding on research methodology concepts. We got good experience to organize such workshop also we are thankful to LEAD college programme of SUK for giving us opportunity to organize workshop.

Thanking You.

Department of Electronics & Telecommunication Engineering, AMGOI, Vathar tarf Vadgaon have organized a Two Days Workshop on "Recent trends in Artificial Intelligence and hands on training on Node MCU", under the LEAD College activities of SUK on 10^{10} & 11^{10} October 2018 for an Internal as well as External participants. This workshop was helpful to existence knowing about embedded system and skill related to the industry institute interaction of the statients. Workshop was inaugurated by Prof. p. B. Ghewari (H.O.D, E&TC) in presence of Resource Person Dr. S. A. Patil, Workshop coordinators Prof. P. B. Desai, Prof. P. S. Bhendwade, iseff members from department and all participants.

Dr. S. A. Patil (Resource Person), started the day one session with the basics of **E-codded** C programming and Arduino. The session continued for two and half hours. The **e-cd** session for day one was conducted by Prof. P. B. Desai and Prof. P. S. Bhendwade. **5-ccd** session was based on Hands on Application based on Arduino. Student learnt different **-cbces** such as led interfacing, key board interfacing and programming techniques.

Dr. S. A. Patil conducting Session

Prof. P. D. Desai conducting day two session

The second day session was conducted by Prof. P. B. Desai and Prof. P. S. Bhendwade. The session started with introduction of ESP8266 WiFi module. In first session Student learnt the pin structure of ESP8266, Programming of ESP8266 and adding the Libraries for ESP8266. Second session was based on interfacing of Bluetonth module and WiFi module. Students developed a AI application using Blinky (Android App) ESP8266 and Google Assistant. Students developed a voice automation system.

Students performing Hands On Application

The workshop proved helpful to enhance knowing about embedded system and skill related to the industry institute interaction of the students. The Session was concluded with an Valedictory Function in Presence of Dr. A. A. Mirje (Dean Academics), Coordinators, Staff Members and all participants from various institutes.

Organized by Electrical Engineering Department, AMGOI Under lead college activity, Shivaji University Kolhapur, M.H, India Thursday, 14th March 2019

Venue. Department of Electrical Engineering

Objectives of workshop

The objective of this programme is to motivate an individual to choose the entrepreneurship as a career and to prepare the person to exploit the market opportunities for own business successfully. These objectives can be set both in the short-term and long-term basis. EDP is mainly to help in rapid industrialization by supplying skilled entrepreneurs. At the same time, it also industrializes underdeveloped areas. This programme primarily aims at providing selfemployment to the young generation by this and therefore providing a huge scope of employment generation in these sectors.

Subject: Invitation as Expert (Resource person) to delivering a session on 15th March 2019 for Two Days Workshop from 14th -15th March 2019

Dear Sir

It is our immense pleasure to inform you that the Ashokrao Mane Group of Institutions (AMGOI) is organizing a Two Days Workshop on EMPOWERING ENTREPRENEURSHIP AND SKILL DEVELOPMENT: PAST AND FUTURE from 14th -15th March 2019, under Lead College Activity, Shivaji University, Kolhapur, M.S., India. The objective of this programme is to motivate an individual to choose the entrepreneurship as a career and to prepare the person to exploit the market opportunities for own business successfully. These objectives can be set both in the short-term and long-term basis. EDP is mainly to help in rapid industrialization by supplying skilled entrepreneurs. At the same time, it also industrializes underdeveloped areas. This programme primarily aims at providing selfemployment to the young generation by this and therefore providing a huge scope of employment generation in these sectors.
