Repot on Add On Course on C Programming

Date: 23/07/2024 - 31/07/2024

Duration: 7 Days

Number of participants: SY (165 Students)

Resource Person: Prof. S. S. Redekar (HOD, CSE)

About the Course

The C programming course was designed to introduce students to the fundamentals of structured programming and build a solid foundation for further study in computer science and software development. The course focused on understanding core programming concepts such as variables, data types, operators, control structures, and functions, which form the building blocks for writing efficient and error-free programs.

Objective:

The objective of the C programming course for students is to develop a strong understanding of fundamental programming concepts, enhance problem-solving abilities, and build proficiency in writing efficient, structured C code. The course focuses on core topics such as control structures, functions, arrays, pointers, and memory management, providing students with the skills needed for software development and future programming challenges.

Topics Covered:

Day 1: Introduction to C Programming

- Overview of C programming language.
- Basic syntax, structure of a C program, and compiling.
- Introduction to data types, variables, constants, and basic operations.
- Hands-on exercises on writing simple C programs and performing basic operations.

Day 2: Control Structures and Functions

- Conditional statements: if, else, switch.
- Looping constructs: for, while, do-while.

Shri Balasaheb Mane Shikshan Prasarak Mandal's

NH – 4, Vathar Tarf Vadgaon, Tal: -Hatkanangale, Dist: - Kolhapur-416112
Website: www.amgoi.org
Accredited by NAAC
Department of Computer Science & Engineering

- Introduction to functions: function declaration, definition, and calling.
- Practical exercises to implement control structures and functions.

Day 3: Arrays and Strings

- Understanding arrays: one-dimensional and multi-dimensional arrays.
- Array initialization, access, and manipulation.
- Introduction to strings and basic string handling functions.
- Exercises on working with arrays and strings.

Day 4: Pointers and Memory Management

- Basics of pointers and memory addresses.
- Pointer arithmetic, pointers with arrays, and functions.
- Dynamic memory allocation using malloc, calloc, and deallocation using free.
- Hands-on exercises on using pointers in C programs.

Day 5: Structures and Unions

- Introduction to structures: defining and using structures.
- Nested structures and arrays of structures.
- Understanding unions and their applications.
- Practical exercises on structures and unions.

Day 6: File Handling and Error Handling

- File operations: opening, reading, writing, and closing files.
- File pointers and functions: fopen, fclose, fread, fwrite, fprintf, fscanf.
- Introduction to error handling using errno, perror, and custom error handling techniques.
- Hands-on practice on file handling and error management.

Day 7: Project Day

- Students work on a mini-project applying the concepts learned throughout the week.
- Practical implementation of C programming techniques to solve real-world problems.
- Trainers guide students to effectively implement solutions and handle challenges during project development

Methodology:

The C programming course employed a mix of lectures, hands-on exercises, and project-based learning. Concepts were introduced through interactive lectures, followed by practical coding exercises to reinforce learning. On the final day, students worked on a mini-project to apply their knowledge. Regular group discussions, Q&A sessions, and continuous assessments ensured active engagement and understanding throughout the course.

Feedback:

Students found the C programming course well-structured, progressing from basics to advanced topics. Hands-on exercises and the mini-project reinforced learning. Interactive lectures and group discussions clarified doubts, while the pacing allowed for effective understanding. Suggestions included more practical assignments and advanced topics like data structures. Overall, the course enhanced programming skills and prepared students for future challenges.

Conclusion:

The C programming course taught students the basics of programming, including variables, control structures, functions, arrays, pointers, and file handling. Through interactive lessons, practice exercises, and a mini-project, students applied what they learned in real situations. The course helped improve problem-solving and coding skills, preparing students for more advanced topics and success in future programming challenges.

Schedule:

Date	Day	Topic	Duration	Remarks
23/07/2024	Tuesday	Introduction to C, Setup, Basic Syntax	3 Hours	Hands-on Setup
24/07/2024	Wednesday	Data Types, Variables, Constants, Operators	3 Hours	Practical Examples
25/07/2024	Thursday	Control Statements (if, switch, loops)	3 Hours	Exercises Included
26/07/2024	Friday	Functions and Scope in C	3 Hours	Function Implementation
29/07/2024	Monday	Pointers and Memory Management	3 Hours	Important Concept
30/07/2024	Tuesday	Structures, Unions, File Handling	3 Hours	Real-world Applications
31/07/2024	Wednesday	Project, Debugging, Q&A, Wrap-up	3 Hours	Final Review & Demo

NOTICE

All SY CSE, students are hereby informed that Department of Computer science and Engineering is going to organize **Seven days** Training on **C programming** from **23/07/2024** to **31/07/2024**. So attend the training sincerely.

Location for Training:-

Seminar Hall

Note: - Attendance for this training is compulsory.

Thank you for attending 7 day offline _Add-on C Program_ from _23/7/24_ to _31/7/24_ We hope that you found the activity interesting and that we met your expectations. We would be very grateful if you could take a moment to complete the Feedback Form. Your comments will assist us in improving future activities that we will organize.

SCALE: 1–STRONGLY AGREE; 2–AGREE; 3–NEUTRAL; 4–DISAGREE; 5–STRONGLY DISAGREE
Please tick the appropriate number for all statements & provide feedback in the comments box

	(1)	(2)	(3)	(4)	(5)
Seminar/Workshop/Training Details					
The objectives of the training were clearly defined	✓				
The content of the training supported the objectives		✓			
The trainer was knowledgeable about the training topics	✓				
The topics were well organized and easy to follow	✓				
How would you rate the focus and structure of the training course?	✓				
Course Material					
Easy to follow and Navigate (e.g. Slides, Handouts etc)	✓				
The course material was appropriate to background and experience of students	✓				
Training Material was useful and easy to understand		✓			
Content Relevance					
This training/Resource Person experience will be useful in the future	✓				
Training/Session will help to clear aptitude or Tests of software companies	✓				
Instructional methods used during mentoring were effective	✓				
Trainers/Resource Person					
The trainers/Resource Person created a professional and comfortable learning environment	✓				
The trainers /Resource Person showed confidence in the subject matter	✓				
The trainers /Resource Person handled classroom distractions appropriately	✓				
Appropriate examples were provided during session	✓				
Trainer /Resource Person handled questions that were asked during the session	✓				

Comments

What topics would you have liked to have spent more time on?
I Most liked Project realted disussion on this Course.

Do you have any suggestions for future Training Sessions that you would like us to organize?
I have Most spend time to spend Practical knowldge

What new skills have you learnt from the event that you think you will be able to put into practice?
I improve my Progoraming Skill

Any Other Suggestions:
—

Resource Person Evaluation	Average	Good	Very Good	Excellent
